PROGRAM

Preparing for Hot Weather

Representatives of the National Poultry Technology Center at Auburn University show you how to maximize poultry performance and ready poultry houses for summer.

Managing Poultry House Equipment During Hot Weather

Jim Donald, Extension Ag Engineer & Professor

Learn tunnel basics, windspeed basics, bird cooling, and how to get the most out of conventional houses.

Equipment Maintenance

Jess Campbell, Program Manager, National Poultry Technology Center

Get tips for cool cell system maintenance, fan maintenance, house tightness, and electrical and generator maintenance for hot weather.

Economic Issues Facing Growers

Gene Simpson, Extension Economist & Professor

Learn about profitability and return on investment for energy-saving retrofits, attic inlets, and energy efficient light bulbs.

Turning Trash Into Treasure

Shawn Hawkins, Assistant Professor, UT Biosystems Engineering

Take a closer look at technology that can turn poultry waste litter into a valuable alternative fuel product.

SPONSORS

Speakers and materials for the Grower Education Seminars are funded by a grant from the Tennessee Agricultural Enhancement Program, www.picktnproducts.org.

A2Z Insurance, Inc. • American Proteins, Inc. • Aviagen
Cumberland • Eastern Coverall • Fairmount Poultry
Farm Credit Services of Mid-America • Feed Storage Solutions
Ferrellgas • Guardian Fiberglass • Hero PRS • Hubbard
Jones-Hamilton Co. • Reeves Supply Co. • Tyson Foods, Inc.
Volunteer Poultry • Walco International

The programs are coordinated by TPA in cooperation with UT Extension.

**This is a free seminar and luncheon, however pre-registration is required.
Deadline is May 6. See the reverse side for registration form.**

Recommended biosecurity for poultry growers attending meetings

1. Meeting at another poultry farm or facility

A. Do not go to meeting directly after being in your poultry houses. Change shoes and clothing and preferably shower before attending meeting.

B. At meeting, park as far away from poultry houses or facility as possible.

C. After meeting, inspect shoes for any manure or debris, and clean and disinfect them if needed.

D. If possible, wash vehicle and disinfect tires before arriving back at your premise.

E. After arriving home, change clothes and shoes before entering your poultry house. Shower if possible.
2. Meeting at facility with no connection to poultry

A. Do not go to meeting directly after being in your poultry houses. Change shoes and clothing and preferably shower before attending meeting.

B. After meeting, inspect shoes for any manure or debris, and clean and disinfect them if needed.

C. After arriving home, change clothes and shoes before entering your poultry house. Shower if possible.
3. Document date and place of meeting for future reference if problem occurs.
